Mon-Fri 9am - 5pm
All credit card, Check

Description:

We treat both children and adults with both orthotics and prosthetics, helping them to improve hereditary conditions and recover from sports-related injuries. At Welcare Pharmacy & Surgical, our orthotic solutions are completely customized. Whereas you could shop your local store to get standard orthotics that may wind up doing you more harm than good, our orthotic specialists take a look at you as an individual and come up with a solution that will alleviate your pain as much as possible. With years of experience in providing medical supplies in New York, we know that no two bodies are alike, nor are two conditions the same, so we treat our customers as individuals rather than numbers.

The foot, heel and leg pain can be corrected with the help of custom orthotics. At Alba Medical, that is our No. 1 goal: to provide you with the appropriate orthotics that are customized to fit your body. We provide a range of orthotic devices, including orthotic arch supports, orthotic shoes, orthotic bracing products and spinal orthotics, so you can better manage the pain and walk more freely. We also work with your primary care doctor or specialist to recommend the appropriate plan for you.
